RESUME OF WEEK'S SPORTING NEWS

NEW YORK, Oct. 36. -The records made by the major league clubs in Johnson would have to travel at a pace runs, hits, errors and men left on the far in excess of anything he has shown runs, hits, errors and men left on the bases for the season just closed furnish data for interesting study. In the National League, the Philadelphia colleb, which won the pennant, made next to the largest number of runs with the smallest total of hits. The with the smallest total of hits. The phillies also had fewer men left on the property of the feathers of his fighting methods. Some idea of Phillies also had fewer men left on the season that have the feathers of the feathers of the feathers. bases than any other club and made next to the least number of errors. The Boston Braves were third in run making, seventh in hitting, first in number of stranded runners and made less errors than any of their rivals. St. Louis made the greatest number of runs; Cincinnati led in hits, Chicago in errors and Beston in runners left.

The Boston Red Sox, world's cham-pions and American league pennant pions and American league pennant winners, were third in the run mak-ing in the junior league; first in total number of hits; kept their errors down next to the lowest total but had more runners marooned than any other club ept Detroit. The Tigers, runners-to the Red Sox, made more runs than any other American league com-bination; were second in hitting; fourth in errors and first in left on bases. The Chicago White Sox were second in run making; third in hits; third lowest in errors and second lowest in base runners stranded.

Frank Moran, through his decisive defeat of Jim Coffey, has crowded a bit nearer to a bout with Jess Willard. That the title holder will agree to meet Moran in a ten-round battle with or without decision is quite unlikely. Willard by no stretch of imagination can be termed a whirlwind fighter. In Taylor, Downs and Meredith.

TUNGSTEN PLANT CONSTRUCTED

Like magic a 50-ton concentrating tungsten plant has risen from the edge of Humboldt sink within the past 30 days and will be in operation within the next 40 days, with scarcely a whis-per of the achievement going abroad, is one of the wonders of Humboldt county's present mineral revival, says a Lovelock dispatch.

of his fighting methods. Some idea of Moran's ability over a distance route can be gathered from the fact that he fought twenty rounds with Johnson in Paris on July 4, 1914. Although be lost the decision on points the same would have been true of Willard had his bettle with Johnson in Playana. his battle with Johnson in Havana last April been limited to a similar number of rounds.

Apparently the Pacific coast is developing another cinder path flyer in Frank Sloman, the youth who recently record for the quarter mile by running that distance in 48 1-5 seconds. An idea of this schoolboy's speed can be gathered from the fact that although thousands of 449-yard dashes have been run in the past 15 years, the record has been broken but three times. In 1901 C. Long set the pace at 501-5 seconds where it remained until Ted seconds where it remained until Ted Meredith cut it down to 48 4-5 seconds in 1912 while attending Mercersberg academy. Three years later Sloman cut three-fifths of a second off Mere-dith's time and if he continues to im-prove as Ted did after graduation from scholastic ranks, the California lad will eventually rank with the great quarter milers of athletic history, in-cinding Wendell Baker, Maxey Long, Reidpath, Lon Myers, Burke, Moulton,

STRIKE REPORTED IN SIERRA NEVADA MINE

STOCK IN PROPERTY ADVANCES 2000 PER CENT IN A FEW WEEKS

All Virginia City and the old Com-stockers in Carson are excited over the hig find of high grade ore reported to have been made in the Sierra Ne-vada property, says the Appeal. The ore was encountered a few days ago on the 2500-foot level of the property

and a crosscut being run through the ore body is now in 40 feet and the footwall has not been reached as yet. The ore is a white quartz, heavily sprinkled with yellow pyrites of iron and sulphurets; and any of the "hot water plugs" will readily recognize it broke the American interscholastic record for the quarter mile by running that distance in 48 1-5 seconds. An of the "hot water plugs" will readily recognize it as the ore typical of the old Comstock days. It is said there is a streak three to five feet wide in the ore hade the

A spirit of revival of the old days is already apparent in Virginia. About 35 men have been put to work in the past few days and more will be added as development proceeds in this property and the Union.

The strike is in virgin and unexplored territory and for that reason it is thought that a new era of prosperous mining days may be in store for the greatest old-time mining camp the world has ever produced.
